SINCE 1877

Engineered for Elegance

“Luggage so fine it will stand
as a symbol of excellence”

—
Founder Joseph S. Hartmann, 1877

The love affair begins...

In life, there are only a few things that are endlessly inspiring. They can be found the world over transpiring in a myriad of human pursuits — philosophy, art, food and architecture... it's all yours for the taking. And traveling is the delightful medium to do just that.

Over and above awe-inspiring adventures, globetrotting is also about creating your own classics — discovering breathtaking new places and returning to trusty old favorites. Whether you are traveling for business or pleasure, remember the journey is as important as the destination. So always embrace the novel and cherish the classics; and fall in love over and over again.

At Hartmann, our love affair with travel is apparent in our iconic and innovative luggage designs. Since 1877, they remain recognizable hallmarks of the brand. Like any revered icon, they have left an indelible mark in the world of fine travel. Infusing new technologies alongside our long-standing heritage is what keeps us real and relevant.

Notably, our understated signature style, impeccable craftsmanship, luxurious materials and most importantly, our understanding of the needs of the most discerning traveler.

HARTMANN 7R MASTER

Designed for those who want more out of life

What drives 20% of people to take more risks, test their limits and have an unquenchable thirst for more? They all possess the 7R adventure gene. Inspired by the same aspiration to go beyond, Hartmann designed the 7R luggage collection, a worthy tribute to travel enthusiasts fueled by a spirit of adventure.

Leaning on its timeless legacy of true craftsmanship and sophisticated quality, 7R takes creativity to new heights — pushing design boundaries to the limits, adding subtle details that make stunning differences and perfecting its striking look and feel.

HARTMANN 7R MASTER

Characterized by craftsmanship

Great design stands the test of time. Paying homage to its revolutionary wardrobe trunk of the past, the 7R Master, the brand's distinctive aluminum case, exemplifies the original essence of classic design. Structurally sound, this pièce de résistance is made of the finest aluminum and combines serious style, security and durability. Like prestigious leather, aluminum acquires character over time, giving a nostalgic allure to this now-iconic sculpted shell design.

What sets it apart from the rest

Ingenuous yet exquisite touches that accentuate the travel experience are discreetly infused into this elegant piece. Beginning with its minimalist design and irregular shell ribs to the shock-absorbing soft gliding wheels for silent and seamless rolling, it never misses a beat when keeping in mind the needs of the seasoned traveler.

HARTMANN 7R MASTER

More than 250 steps to create 1 suitcase

Connoisseurs of design classics will appreciate the fine craftsmanship and reassuring innovative techniques involved in making one Hartmann suitcase. A rigorous and relentless process involving more than 250 steps is required to make the unique design. The end result is a pure masterpiece in custom design, innovation and performance that will eclipse any fashion trend.

The making of the 7R Master

Selecting the material

Carefully selected from preeminent suppliers, only the finest and most durable aluminum is chosen.

Preparing the tools

Proficiently-constructed craftsman tools are used to form our perfectly designed shells, including the mold for our 7R Master design.

Making the unique shell

Our shells are sculpted by applying intense pressure to the aluminum sheet.

Forming the precise frame

Blending the latest-generation technology with skilled craftsmanship, the frame is contoured into shape.

A polished surface

Each shell is polished manually to ensure a strikingly-stunning surface.

Wheels keep on turning

To ensure precise rotation, each multi-bearing wheel is checked and assembled by hand.

Fixed firmly by the finest decor

To give each case a signature look, customized Hartmann rivets are created to bond different elements.

Lining the inside

Various parts of the inside lining are put together to ensure uniformity in the interior.

Adding excellence

As a symbol of excellence, the Hartmann logo completes the signature look.

Inserting the interior

The interior is fixed to each suitcase by hand.

The finishing touch

Each case is checked to ensure it meets stringent quality standards, and then polished and labeled.

Tests, tests and more tests

Before going into production, each Hartmann product undergoes extensive and strict crash and water tests so it will withstand the harshest conditions.

HARTMANN 7R

Underneath lies the ultimate strong body

Making the most of the latest state-of-the-art material, the renewed 7R collection is made of a new Hartmann-owned weaving pattern interlaced into the revolutionary Curv® material. The end result is a more lavish and luxurious looking suitcase.

What's more, it cleverly disguises the robustness of this impact-resistant hard-case shell making it the strongest yet lightest Hartmann collection ever.

HARTMANN 7R

Smooth & luxurious

Sculpted and styled from innovative, metalized Curv material, this distinctive and unique design is the cornerstone of this exclusive collection. Diligently made with attention to every conceivable desire of the well-heeled traveler, form and functionality blend beautifully. Thoughtful considerations are emphasized in the intensely soft premium leather handles, customized interior lining and extra integrated pockets. Lightweight and luxurious, it's highly-suited for the sophisticated traveler who enjoys pushing the boundaries of life.

HARTMANN INTENSITY SPL

Taking the classic hardside to new heights

The epitome of modern cool, the timeless Intensity SPL range has managed to keep its magic since its launch. With its sleek metallic appearance and signature Hartmann accents of warm vegetable tanned leather, this hardy suitcase maintains classic proportions. For travelers seeking a modern contemporary style with a touch of characteristic elements, this luggage collection elevates the classic hardside.

HARTMANN INTENSITY SPL

Silent beauty

This distinctive reinterpretation of classic design turns heads everywhere it goes. The sturdy polycarbonate case is juxtaposed with warm luxurious elements, a hallmark of Hartmann's enviable style. The refined interior features plenty of convenient details for easy and organized packing while the wheels allow the suitcase to silently and effortlessly glide in all directions. A modern beauty both inside and out.

Elevating packing to an art form

The measure of any good traveler is how well he or she packs. Of course there are some simple rules to follow: lay out everything you need, stick to a color scheme, roll shirts so they don't wrinkle and stuff shoes with socks.

But the secret to packing like a pro is finding a suitcase that is organized with enough compartments and pockets allowing you the versatility to fit and find everything you need. Packing well is akin to traveling well.

The secret is finding the perfect travel companion.

HARTMANN TWEED BELTING COLLECTION

An all-American classic

Drawing inspiration from centuries-old tweed classic, there is nothing quite as iconic as the exclusive Tweed Belting collection. Designed in America with legendary tweed fabric renowned for its enduring performance, this timeless staple lends itself well to Hartmann designs and remains a recognizable hallmark of the brand. Pairing archival elements with rich American vegetable tanned leather and strengthened with a water repellent finish, this modern classic carries the legacy of fine travel.

The difference is in the details

Enthused with a skillful blend of reassuring tradition and sophisticated modern flair, stylish leather-custom binding, metal detailing and understated signature essentials give this luggage a unique character. Lovingly crafted with thought to form and functionality, the result is highly-coveted fabrics and luxurious final touches. Combining core classics like the Legacy Duffel with the new European cabin-size Spinner®, this collection continues to reinvent itself while staying distinctive for all the right reasons.

HARTMANN HM JAMESTOWN

Intelligence meets style

Visually stunning with a sleek modern design, the HM Jamestown collection brings time-honored Italian craftsmanship into the 21st century. Made with a fine textured calf leather, this luxurious collection marries unmistakable richness with intelligent functionality. Understanding that the difference really is in the details, every piece is perfectly thought out.

Business travelers will appreciate the attention paid to ensuring both interior and exterior is well-fitted with easy-to-access pockets and smart sleeves for laptops and travel documents.

For comfortable and practical traveling, this piece is a fine business companion that will last for journeys to come.

HARTMANN J BIZNES

Smart designs for smart travelers

With an eye to creating business bags and cases to satisfy seasoned on-the-go professionals, Hartmann incorporates luxury and utility in its new J Biznes collection. In order to function well in the high-use environments of constant travelers, each piece features a durable but luxurious Saffiano leather front panel with tough ballistic nylon, as well as ample multi-functional, easy-to-access pockets including a smart computer sleeve. Meticulously made with every imaginable need of the business traveler, it's the clear choice when seamless transitioning from business to leisure counts.

HARTMANN PEMBROKE

Understated elegance

Encompassing the true essence of Italian style and luxury, the Pembroke Duffel sets the standard for timeless beauty. Like fine wine, over time the premium leather darkens with warm shades of color and takes on an unimaginable softness giving this bag a vintage look and feel. Oozing with grace and sophistication, the signature U-bend handle is the most outspoken identity of the collection whispering sweet indulgence.

Crafted with genuine Italian leather

Made in Italy, this gorgeous collection sits proudly in the forefront of contemporary luxury bags. And for good reason. Employing a centuries-old tradition of artisanal mastery, each leather piece takes a considerable time, attention and skill to produce. Hartmann chooses only the finest quality crafted calf leather for its extreme robustness and immediately recognizable richness. Embossed with its distinctive Ducord™ stripes, this bag effuses excellence and authenticity.
